Summary

Frontend developer skilled in React, Tailwind CSS, GSAP, and modern web technologies. Passionate about creating interactive, responsive, and high-performance web applications with smooth animations and user-friendly designs.

Education

Guru Gobind Singh Indraprastha University, New Delhi
B.Tech in Computer Science (Data Science)

Sep 2023 – Sep 2027

Experience

CodexIntern – Front-End Developer Intern

Mar 3, 2025 – Mar 29, 2025

- Developed responsive UI components using React and Tailwind CSS.
- Optimized animations and performance for faster load times.
- Worked with designers to refine UX and accessibility.
- Used Git and agile workflows for efficient development.

Projects

Portfolio Website

React, Tailwind, GSAP

- Built an interactive portfolio with GSAP animations for smooth transitions.
- Created a fast and responsive UI with optimized performance.

Amazon UI Clone

React, Tailwind, Redux

- Developed a functional e-commerce UI with a cart and checkout system.
- Implemented Redux for state management, ensuring seamless updates.

Significo

Tailwind, GSAP

- Designed an award-winning, animation-heavy website with smooth scrolling.
- Optimized animations for fast performance across devices.

Magma

JavaScript, GSAP

- Developed a highly interactive website with motion effects.
- Focused on GPU-accelerated animations for smooth transitions.

Achievements

- Ranked Top 25 in the Reimagine Hackathon (National-level competition).
- Solved 100+ LeetCode questions, improving problem-solving skills.

Technical Skills

Languages: HTML, CSS, JavaScript, Tailwind, GSAP

Frameworks: React, Redux, Material-UI

Tools: Git, VS Code
